

Biodiversity is Amazing!

Wow! There are so many different plants and animals outside. A place with high biodiversity has many plant and animal species, and each one is a little different. Take a walk and try to locate the following items. Each item must be a part of the natural environment such as a plant, animal, soil or water. How many can you find? Place a check in front of each thing that you find.

Find something:

1. yellow

2. round

3. that smells good

4. that smells bad

5. pointy

6. rough

7. cold

8. tall
