

Recommended Native Plant Nurseries List

Georgia Native Plant Initiative

<http://botgarden.uga.edu/conservation-science/georgia-native-plant-initiative/>

We list these nurseries to help home gardeners, land managers, and garden designers find ethical sources of plant species native to Georgia. None of the companies nor organizations below have provided us with any financial or other benefits in order to be listed here. We offer this resource as a public service, serving Georgia as your State Botanical Garden. We work to keep this list updated. If you have information to share, write to jceska@uga.edu.

All About Natives LLC

AND our recommendations for Georgia seeds and Grassland Resources:

Please remember that Common Milkweed, *Asclepias syriaca*, is not native to Georgia and is a high conservation concern for invasiveness, escaping gardens and invading natural plant communities. Be sure to check all mixes to avoid bringing Common Milkweed into Georgia landscapes.

<https://botgarden.uga.edu/wp-content/uploads/2018/03/milkweedinformation.pdf>

1. Roundstone does have Georgia seeds of Georgia species but this stock can sell out quickly. Check for Georgia provenance versus species appropriate for Georgia if seed sourcing is important for your project. (Provenance means the seeds came from Georgia populations, not that they are just seeds of species that are native to Georgia.)

Roundstone Native Seed (Upton, KY) <http://www.roundstoneseed.com/>

2. Prairie Moon and **Ernst** nurseries have wonderful resources on their websites, creating prairies, mowing techniques, planting for pollinators. Check out Prairie Moon for informative blogs, newsletters, videos, and planting kits.

Prairie Moon Nursery (Winona, MN) <https://www.prairiemoon.com/>

Ernst Conservation Seeds (Meadville, PA) <http://www.ernstseed.com/>

3. SBG is selling seeds! Our seeds are all Georgia provenance. Stocks are limited. We sell seeds to gardeners through our SBG Garden Gift Shop. We also provide seeds free to growers as supplies last to help build the commercial production of Georgia natives from Georgia sourced seeds. Contact Heather Alley, alley@uga.edu at the Mimsie Lanier Center.
