

Why enroll in the Certificate in Native Plants program?

Have you ever wondered, “what is that plant?” Or have you yearned to know more about native plants or to participate in plant conservation activities but felt you “just didn’t know enough?” Have you considered a career in plant biology, ecology or conservation horticulture? The Certificate in Native Plants program will provide you with the basic knowledge and skills that dedicated amateurs and professionals need to know about native plants and their conservation. Even if you do not plan on a professional career in plant conservation, knowledge gained in this program will equip you to be a more effective advocate and volunteer in your community.

For additional information and applications, email sbgeduc@uga.edu or call 706-542-6156

Classes offered in partnership with:

Medicine Bow Wilderness School

The State Botanical Garden of Georgia at the University of Georgia is a “living laboratory” for university students and faculty who utilize the collections and natural plant communities for studies in a variety of disciplines. This facility is also a public space for enjoyment by anyone who finds beauty, knowledge and peace in a garden.

Certificate in Native Plants

2025

The Certificate in Native Plants offers committed individuals a comprehensive series of short courses in identification, cultivation, propagation, ecology and conservation of native Georgia plants. With an emphasis on participatory learning, courses are designed to provide a supportive and challenging learning atmosphere. Participants will gain a greater appreciation and understanding of native plants in a broad context.

*An education initiative of:
The State Botanical Garden of Georgia
and
The Georgia Plant Conservation Alliance*

2450 S. Milledge Avenue
Athens, Ga. 30605

UNIVERSITY OF GEORGIA

The Certificate in Native Plants is ...

Knowledge-based

Courses are taught by experts – university professors, conservation professionals and experienced field botanists who are dedicated to sharing their knowledge, experience and enthusiasm in a relaxed setting and accessible format.

Field-directed

Plan to get your hands dirty and your feet wet! All courses involve hands-on experience with plants and plant communities. Volunteer activities and field trips will help you learn by doing.

Conservation-oriented

We believe that the old saying “knowledge is power” applies to conservation. Once you know the basics of botany and plant conservation, you will be more prepared and motivated to contribute to the conservation of Georgia’s flora and native plant habitats.

Learner-friendly

Students may take as long as needed to complete the program. Courses are offered so the program can be completed in as little time as one year. Classes may be taken in any order (with a few exceptions) and at your own pace.

Certificate Requirements

4 core courses	32 hours
6 electives	24 hours
2 field trips	8 hours
Volunteer service	16 hours
TOTAL	80 hours

2025 Class Schedule

Six Continuing Education Units (CEU)
available through the University of Georgia

CORE CLASSES

- Plant Taxonomy (V), **April 5, 7, 8**
- Natural Communities (V), **July 15, 17, 21**
- Plant Conservation (V), **Aug. 9, 12**
- Basic Botany (V), **Nov. 8, 12**

ELECTIVES

- Native Plant Propagation, **Feb. 7**
- Winter Tree Identification, **Feb. 8**
- Native Plant Symposium, **March 5**
- Spring Wildflowers of Upland Deciduous Forests, **March 8**

4 core courses – 8 hours each

Fee: \$105 per course (10% off for Friends)

- Basic Botany
- Plant Taxonomy
- Natural Communities of Georgia
- Plant Conservation

6 elective courses – 4 hours each *

Fee: \$50 per course (10% off for Friends)

Participants choose six courses from a wide range of elective course offerings

*Some classes may exceed 4 hours in length

Participants complete 16 hours of volunteer service with a conservation organization.

Participants complete two half-day field trips organized by the Georgia Botanical Society, Georgia Native Plant Society or another conservation organization.

Participants must pay an initial \$30 registration fee to cover the cost of class materials.

ELECTIVES (cont.)

- Managing Invasive Plants*, Gaskins Forest Education Center, **March 22**
- Spring Wildflowers of the Granite Outcrops*, Davidson–Arabia Mountain Nature Preserve, **March 27**
- Soils of the Georgia Piedmont & Beyond, **March 29**
- Ethnobotany of Native Plants*, Medicine Bow Wilderness School, **May 8**
- Native Ferns of the Georgia Piedmont, **May 18**
- Introduction to Graminoid ID, **May 31**
- Carnivorous Plants, **June 7**
- Our Native Pollinators*, Georgia Mountain Research & Education Center, **June 13**
- Native Ferns of the North Georgia Mountains, **June 14**
- Summer Tree Identification, **June 21**
- Native Plant Propagation*, Chattahoochee Nature Center, **June 28**
- Carnivorous Plants*, Chattahoochee Nature Center, **July 26**
- Native Plants & Insect Pollinators*, Chattahoochee Nature Center, **Aug. 23**
- Fall Wildflowers of the Georgia Piedmont, **Sept. 13**
- Fall Wildflowers of the Granite Outcrops*, Davidson–Arabia Mountain Nature Preserve, **Sept. 18**
- Fungal Ecology & Diversity, **Oct. 4**
- Plants We Love to Hate, **Oct. 11**
- Warm-Season Grasses, **Oct. 18**
- Groundcover Restoration*, Gaskins Forest Education Center, **Nov. 1**
- Invasive Plant Control (V), **Nov. 15**

Note:

* - locations other than the State Botanical Garden of Georgia
(V) - virtual (online) classes
